Information Items

Ms. Belinda Grantham, Director of Early Education, presented the Head Start Semi Annual Report. She noted that Head Start participated in three monitoring reviews during the last six months. Satisfactory results have been received on one of the reviews with the results of the other two reviews still pending. She indicated that the Parent, Family, and Community Engagement (PFCE) Framework was implemented this year and data showed that 58% of the families experienced gains in the family outcome areas, 21% of the families experienced no gains or progress in the family outcome areas, and 21% of the families chose not to participate in the PFCE Framework areas. A decrease in the number of children that completed health and dental checks was noted. Because of this decrease, additional dental clinics, additional appointments, and changes in staff have been implemented to address it. The most significant domains of improvements during the school year were literacy and math with math continuing to be the lowest achieving domain. Information on Head Start School Readiness outcomes will be discussed and analyzed in order to improve language and math achievement in the spring. Dr. Williams and Ms. Grantham answered questions from the committee members.
